

## 315 SPA, YORKSHIRE

Located in the heart of the beautiful Yorkshire countryside outside Huddersfield, 315 Spa was added to this already successful retreat. The combination of a restaurant, bar and eighteen luxurious rooms in a contemporary and stylish setting makes for a perfect getaway.

Joan Webb of JW Design explains why they chose to work with Sanderson Design Group Contract brands, selecting wallpaper from Zoffany and throws and cushions from Harlequin's Anthology collection. 'When choosing the fabrics and wall coverings it was important that the schemes reflected the tranquil woodland setting, combined with the feeling of movement, softness and luxury associated with a spa and water. Our aim was to create an elegant, sophisticated interior using the latest designs and technology.'

The beauty of working with Sanderson Design Group Contract is the choice of brands designers have at their disposal.
